WED 3x6 OVER-UNDER (FTP 230W) -- ~50 min -- proven dose

Same workout you nailed May 20 (max HR 164, all 3 blocks). Each 6-min block alternates **1 min @ 105% (241W) / 1 min @ 95% (218W)**, three pairs per block. 5 min easy between. **Sharpen role: confirm the gear, don't dig a hole.** Pre-workout fuel is non-negotiable this time (not just gels) -- 400+ cal in the tank before starting. *Workout file: zwift-workouts/3x6-over-under.zwo*

SUN LONG RIDE -- two options

Option A (default): 2 hrs Grail outdoor. 30 min warmup Z2 (HR 110-125), 20 min tempo (HR 135-145), 15 min Z2 (HR 120-130), 20 min tempo (HR 135-145), cooldown easy. Half the volume of last Sun, same intensity touch. Fueling ~60-70 g/hr (comfortable refeed, NOT race rate).

Option B: Lake Hope w/ Anna -- 3-4 hrs gravel social pace. Ride by RPE, mostly Z2, climbs by feel. Perfect sharpen-week substitute -- no structure pressure, social terrain, great location.
